

SKYMO KLEENPMC™

INDUSTRIAL PRECISION
MACHINE CLEANER

CLEAN FROM BELOW THE SURFACE OF THE SUBSTRATE

Safe on all metal, including all aluminum
alloyed steels, naval bronze, brass,
copper and carbide

ORGANIC HYBRID SOLVENT SYSTEM

- Will not damage cured epoxies, urethanes or silicones.
- Will remove 99+% of organic and inorganic soils found in industrial surfaces cleaning from below the substrate.
- Will not stain, discolor or pit: aluminum, titanium, stainless steels (300 and 400 series) brass, copper, naval bronze, gold or silver.
- Will not blister properly cured industrial finishes.
- Safe on all industrial ceramics.
- Safe on all industrial finishes and all industrial plastics.

WHY USE SKYMO KLEEN™ PMC

- Ready To Use
- Biodegradable
- Non Toxic & Non Corrosive
- No Harsh Chemicals
- Leaves No Residue
- Doesn't Ship as Flammable
- No Hazard Material
- Deep Cleaning & Fast Acting
- Reduce Total Cost of Cleaning (TCOC)*

APPLICATIONS

Equipment / Machinery, Facility Maintenance, Fleet / Vehicles, Precision
Tools Precision Machinery, Construction Machinery, Wiring
Harness, Tractor Truck 5th Wheel

Manufactured in an
FDA
Registered Facility

SKYMO KLEEN™ PMC REMOVES THE FOLLOWING FROM DEEP CLEANED SUBSTRATE

- | | | |
|--|--|---|
| <ul style="list-style-type: none"> • Mineral Oils • Water-Soluble Oils • Synthetic Oils • Natural Oils | <ul style="list-style-type: none"> • Synthetic Greases • Mineral Oil Greases • Natural & Synthetic Rubber Tailings • Combustion Effluents • Adhesives | <ul style="list-style-type: none"> • Rust Inhibitors • Lubricating Oils • Fingerprint Oils • Carbon in the Form of Exhaust
Engine Carbons |
|--|--|---|

*TCOC - Total Cost of Cleaning refers to the following: how effectively it remove all the soil from the substrate the easy of the soil removal how the waste is disposal of; How long does it take the substrate to be ready for the next process (Dry For Painting) Disposal of the containers; recycle of hazardous waste. Includes labor for each step
